

American Academy

Ciudad Jardín Resort & Country Club, Gurabo, PR
(787) 731-2180

At American Academy, we believe in providing our students with a creative, nurturing and a secure environment that will encourage a joy of learning that they will maintain throughout their lives. We help them establish an educational foundation in Literature, Mathematics, Science, Social Studies, Foreign Languages, Art, Technology, Music and Physical Education.

OUR MISSION

Our mission is to assist and enable each of our students to develop and achieve their maximum potential by honoring their individual personalities and interests. We strive to stimulate their independence, leadership and creativity while developing and reinforcing a sense of their social and ethical responsibilities to their community – both locally and globally.

OUR CURRICULUM

Our programs are focused on the child's needs and we are dedicated to ensuring that our students establish an integrated intellectual foundation in Mathematics, Science, Social Studies and English. Our teachers provide enriching activities that will facilitate the learning of those concepts and the development of intellectual skills within a selected theme that is engaging for the students. During the learning experience, students are encouraged to question and develop an individual decision making process while developing core academic competencies. In addition to the core classes, students will be exposed to other academic disciplines such as: Spanish, Art, Music and Physical Education.

Our teachers are dedicated to adapting the curriculum and education activities to match the interests and talents of their students. Daily, they strive to provide a rich environment in which their students can interact and play as a part of the learning process. Our students enjoy learning because they can quickly see how the instructional themes, classroom materials and activities have meaning and relevance to their own lives.

OUR DIRECTORS & OFFICER'S BACKGROUND

The Directors and Officers at American Academy are educational management professional with decades of experience managing and operating educational institutions, camps, and child care centers. In conjunction to founding the American Academy they have also founded and established the American Military Academy, Kids R Kids, Camp Mabó and the Sound of Music Camp. Illustrating a three-generation family dedication to education, the leadership of the American Academy is committed to establishing solid educational institutions that comply with today's educational, technological and social needs.

ENROLLMENT

For the 2002-2003 school year, the American Academy will be accepting student applications for the following grade levels: Pre kindergarten, Kindergarten and 1st Grade. Additional grade levels will be added in the future. The long-term goal of the American Academy is the establishment of an educational institution that will serve students from pre-kindergarten to 12th grade.

SCHOOL FACILITIES

For the 2002-2003 school year, the American Academy will be holding classes in a temporary facility while we await the completion of our new, state of the art facilities currently being built at the Ciudad Jardin Resort & Country Club. Empresa Sadurni, the developer for the Ciudad Jardin Resort & Country Club's facilities, has carefully designed and planned an area that covers more than 10 acres for American Academy's future permanent facilities.

LANGUAGE INSTRUCTION

All classes at the American Academy are taught in English.
